10

11 STRIKE 3 HOLDINGS, LLC,
12 Plaintiff,

13 vs.

14 JOHN DOE subscriber assigned IP
address 76.82.10.247,
15 Defendant.
16

Case Number:

**COMPLAINT FOR COPYRIGHT
INFRINGEMENT - DEMAND FOR
JURY TRIAL**

17
18 Plaintiff, Strike 3 Holdings, LLC (“Strike 3” or “Plaintiff”), brings this
19 complaint against Defendant, John Doe subscriber assigned IP address
20 76.82.10.247 (“Defendant”), and alleges as follows:

21 **Introduction**

22 1. This is a case about the ongoing and wholesale copyright
23 infringement of Plaintiff’s motion pictures by Defendant, currently known only by
24 an IP address.

25 2. Plaintiff is the owner of award-winning, critically acclaimed adult
26 motion pictures.

27 3. Strike 3’s motion pictures are distributed through the *Blacked*,
28 *Blacked Raw*, *MILFY*, *Slayed*, *Tushy*, *Tushy Raw*, *Vixen*, and *Wifey* adult websites

1 and DVDs. With millions of unique visitors to its websites each month, the
2 brands are famous for redefining adult content, creating high-end, artistic, and
3 performer-inspiring motion pictures produced with a Hollywood style budget and
4 quality.

5 4. Defendant is, in a word, stealing these works on a grand scale. Using
6 the BitTorrent protocol, Defendant is committing rampant and wholesale
7 copyright infringement by downloading Strike 3's motion pictures as well as
8 distributing them to others. Defendant did not infringe just one or two of Strike
9 3's motion pictures, but has been recorded infringing 37 movies over an extended
10 period of time.

11 5. Although Defendant attempted to hide this theft by infringing
12 Plaintiff's content anonymously, Defendant's Internet Service Provider ("ISP"),
13 Spectrum, can identify Defendant through his or her IP address 76.82.10.247.

14 6. This is a civil action seeking damages under the United States
15 Copyright Act of 1976, *as amended*, 17 U.S.C. §§ 101 et seq. (the "Copyright
16 Act").

17 **Jurisdiction and Venue**

18 7. This Court has subject matter jurisdiction over this action pursuant to
19 28 U.S.C. § 1331 (federal question); and 28 U.S.C. § 1338 (jurisdiction over
20 copyright actions).

21 8. This Court has personal jurisdiction over Defendant because
22 Defendant used an Internet Protocol address ("IP address") traced to a physical
23 address located within this District to commit copyright infringement. Therefore:
24 (i) Defendant committed the tortious conduct alleged in this Complaint in this
25 State; (ii) Defendant resides in this State and/or; (iii) Defendant has engaged in
26 substantial – and not isolated – business activity in this State.

27 9. Plaintiff used IP address geolocation technology by Maxmind Inc.
28 ("Maxmind"), an industry-leading provider of IP address intelligence and online

1 fraud detection tools, to determine that Defendant's IP address traced to a physical
2 address in this District. Over 5,000 companies, along with United States federal
3 and state law enforcement, use Maxmind's GeoIP data to locate Internet visitors,
4 perform analytics, enforce digital rights, and efficiently route Internet traffic.

5 10. Pursuant to 28 U.S.C. § 1391(b) and (c), venue is proper in this
6 district because: (i) a substantial part of the events or omissions giving rise to the
7 claims occurred in this District; and, (ii) the Defendant resides (and therefore can
8 be found) in this District and resides in this State. Additionally, venue is proper in
9 this District pursuant 28 U.S.C. § 1400(a) (venue for copyright cases) because
10 Defendant or Defendant's agent resides or may be found in this District.

11 **Parties**

12 11. Plaintiff, Strike 3 is a Delaware limited liability company located at
13 2140 S. Dupont Hwy, Camden, DE.

14 12. Plaintiff currently can only identify Defendant by his or her IP
15 address. Defendant's IP address is 76.82.10.247. Defendant's name and address
16 can be provided by Defendant's Internet Service Provider.

17 **Factual Background**

18 ***Plaintiff's Award-Winning Copyrights***

19 13. Strike 3's subscription-based websites proudly boast a paid
20 subscriber base that is one of the highest of any adult-content sites in the world.
21 Strike 3 also licenses its motion pictures to popular broadcasters and Strike 3's
22 motion pictures are some of the highest selling adult DVDs in the United States.

23 14. Strike 3's motion pictures and websites have won numerous awards,
24 such as "best cinematography," "best new studio," and "adult site of the year."

25 15. Strike 3's motion pictures have had positive global impact, leading
26 more adult studios to invest in better content, higher pay for performers, and to
27 treat each performer with respect and like an artist.

28 16. Unfortunately, Strike 3, like a large number of other makers of

1 motion picture and television works, has a major problem with Internet piracy.
2 Often appearing among the most infringed popular entertainment content on
3 torrent websites, Strike 3's motion pictures are among the most pirated content in
4 the world.

5 ***Defendant Used the BitTorrent File Distribution Network***
6 ***to Infringe Plaintiff's Copyrights***

7 17. BitTorrent is a system designed to quickly distribute large files over
8 the Internet. Instead of downloading a file, such as a movie, from a single source,
9 BitTorrent users are able to connect to the computers of other BitTorrent users in
10 order to simultaneously download and upload pieces of the file from and to other
11 users.

12 18. BitTorrent's popularity stems from the ability of users to directly
13 interact with each other to distribute a large file without creating a heavy load on
14 any individual source computer and/or network. It enables Plaintiff's motion
15 pictures, which are often filmed in state of the art 4kHD, to be transferred quickly
16 and efficiently.

17 19. To share a movie within the BitTorrent network, a user first uses
18 BitTorrent software to create a .torrent file from the original digital media file.
19 This process breaks the original digital media file down into numerous pieces.

20 20. The entire movie file being shared has a hash value (*i.e.*, the "File
21 Hash"). A hash value is an alpha-numeric value of a fixed length that uniquely
22 identifies data.

23 21. Hash values are not arbitrarily assigned to data merely for
24 identification purposes, but rather are the product of a cryptographic algorithm
25 applied to the data itself. As such, while two identical sets of data will produce
26 the same cryptographic hash value, any change to the underlying data – no matter
27 how small – will change the cryptographic hash value that correlates to it.

28 22. To find and re-assemble the pieces of the digital media file, *i.e.*, to

1 download the file using BitTorrent, a user must obtain the .torrent file for the
2 specific file that has been broken down into pieces.

3 23. Each .torrent file contains important metadata with respect to the
4 pieces of the file. When this data is put into the cryptographic algorithm, it results
5 in a hash value called the “Info Hash.”

6 24. The “Info Hash” is the data that the BitTorrent protocol uses to
7 identify and locate the other pieces of the desired file (in this case, the desired file
8 is the respective file for the infringing motion pictures that are the subject of this
9 action) across the BitTorrent network.

10 25. Using the Info Hash in the metadata of a .torrent file, a user may
11 collect all the pieces of the digital media file that correlates with the
12 specific .torrent file.

13 26. Once a user downloads all of the pieces of that digital media file from
14 other BitTorrent users, the digital media file is automatically reassembled into its
15 original form, ready for playing.

16 27. Plaintiff has developed, owns, and operates infringement detection
17 systems named “VXN Scan” and the “Cross Reference Tool”. Each infringement
18 detection system identifies infringement in two distinct ways.

19 28. The Cross Reference Tool first searched for and obtained .torrent
20 files claiming to be infringing copies of Plaintiff’s works, and then VXN Scan
21 downloaded complete copies of the digital media files that correlate to
22 those .torrent files.

23 29. Plaintiff then compared the completed digital media files to
24 Plaintiff’s copyrighted works to determine whether they are infringing copies of
25 one of Plaintiff’s copyrighted works.

26 30. The digital media files have been verified to contain a digital copy of
27 a motion picture that is identical (or, alternatively, strikingly similar or
28 substantially similar) to Plaintiff’s corresponding original copyrighted Works.

1 31. VXN Scan used the “Info Hash” value, contained within the metadata
2 of the .torrent file which correlated with a digital media file that was determined
3 to be identical (or substantially similar) to a copyrighted work, to connect with
4 Defendant, exchange information, and download a piece (or pieces) of multiple
5 digital media files from Defendant using the BitTorrent network.

6 32. VXN Scan only downloads pieces of digital media files from
7 Plaintiff's copyrighted works. At no point did VXN Scan upload content to any
8 BitTorrent user. Indeed, it is incapable of doing so.

9 33. While Defendant was using the BitTorrent file distribution network,
10 VXN Scan established multiple direct TCP/IP connections with Defendant's IP
11 address.

12 34. VXN Scan detected, captured and documented the TCP/IP
13 connections with Defendant including, but not limited to, Defendant transmitting
14 pieces of Plaintiff's copyrighted motion pictures to Plaintiff and recorded those
15 connections in a Packet Capture (“PCAP”) file.

16 35. Plaintiff identified these pieces as portions of infringing copies of
17 Strike 3's motion pictures.

18 36. Plaintiff also recorded infringement using its Cross Reference Tool.

19 37. The Cross Reference Tool is designed on the basis of a distributed
20 hash table (“DHT”) and is a class of decentralized distributed systems that
21 provides an identification service similar to a hash table: (key, value) pairs are
22 stored in a DHT, and any participating node can efficiently retrieve the value
23 associated with a given key.

24 38. BitTorrent clients use a DHT to locate peers who are participating in
25 the distribution of the digital media files related to the Info Hash. Specifically, a
26 BitTorrent client locates and connects to the DHT network. That way it registers
27 its own IP address while requesting IP addresses of other peers, which are
28 distributing the same .torrent file.

1 39. Using this process BitTorrent users are able to locate and connect to a
2 number of peers within a particular swarm, and download the data related to
3 each .torrent file.

4 40. A BitTorrent client registers the IP address of the user into the DHT
5 with the purpose of participating in the distribution of constituent pieces of the
6 relevant digital media file.

7 41. The Cross Reference Tool uses servers that locate .torrent files and
8 their related Info Hashes. The servers subsequently download the torrent
9 information from popular torrent websites. The Cross Reference Tool is incapable
10 of downloading any digital media file associated with an Info Hash, and it has
11 only the ability to download torrent file metadata.

12 42. Similar to BitTorrent clients, the Cross Reference Tool uses a DHT
13 to obtain the IP Addresses of peers registered to each .torrent file listed in the
14 DHT.

15 43. The Cross Reference Tool detected and documented that Defendant
16 used the BitTorrent File Distribution Network with the purpose of distributing
17 digital media files that have been determined to be identical (or substantially
18 similar) to Plaintiff's copyrighted motion pictures. At no point did the Cross
19 Reference Tool upload content to any BitTorrent user. Indeed, it is incapable of
20 doing so.

21 44. Both VXN Scan and the Cross Reference Tool independently
22 recorded multiple infringements in the manner described above. Collectively,
23 Plaintiff's proprietary software detected 37 number of infringements.

24 45. Each work infringed by Defendant is listed on Exhibit A and sets
25 forth the Universal Time Coordinated (UTC) time and date of each infringement,
26 along with the Info Hash value obtained from the metadata of the
27 corresponding .torrent file.

28 46. Exhibit A also sets forth relevant copyright information for each

1 work at issue: the date of publication, the date of registration, and the work's
 2 copyright registration number. In a showing of good faith, Plaintiff has
 3 intentionally omitted the title of the work from this public filing due to the adult
 4 nature of its content, but can provide a version of Exhibit A containing the works'
 5 titles to the Court or any party upon request.

6 47. Thus, Defendant downloaded, copied, and distributed Plaintiff's
 7 Works without authorization.

8 48. Defendant's infringement was continuous and ongoing.

9 49. Plaintiff owns the copyrights to the Works and the Works have been
 10 registered with the United States Copyright Office.

11 50. Plaintiff seeks statutory damages, attorneys' fees, and costs under
 12 17 U.S.C. § 501 of the United States Copyright Act.

13 **COUNT I**

14 **Direct Copyright Infringement**

15 51. The allegations contained in paragraphs 1-50 are hereby re-alleged as
 16 if fully set forth herein.

17 52. Plaintiff is the owner of the Works, which is an original work of
 18 authorship.

19 53. Defendant copied and distributed the constituent elements of
 20 Plaintiff's Works using the BitTorrent protocol.

21 54. At no point in time did Plaintiff authorize, permit or consent to
 22 Defendant's distribution of its Works, expressly or otherwise.

23 55. As a result of the foregoing, Defendant violated Plaintiff's exclusive
 24 right to:

25 (A) Reproduce its Works in copies, in violation of 17 U.S.C. §§ 106(1)
 26 and 501;

27 (B) Distribute copies of the Works to the public by sale or other transfer
 28 of ownership, or by rental, lease or lending, in violation of 17 U.S.C. §§ 106(3)

1 and 501;

2 (C) Perform the copyrighted Works, in violation of 17 U.S.C. §§ 106(4)
3 and 501, by showing the Works' images in any sequence and/or by making the
4 sounds accompanying the Works' audible and transmitting said performance of
5 the work, by means of a device or process, to members of the public capable of
6 receiving the display (as set forth in 17 U.S.C. § 101's definitions of "perform"
7 and "publicly" perform); and

8 (D) Display the copyrighted Works, in violation of 17 U.S.C. §§ 106(5)
9 and 501, by showing individual images of the works non-sequentially and
10 transmitting said display of the works by means of a device or process to members
11 of the public capable of receiving the display (as set forth in 17 U.S.C. § 101's
12 definition of "publicly" display).

13 56. Defendant's infringements were committed "willfully" within the
14 meaning of 17 U.S.C. § 504(c)(2).

15 WHEREFORE, Plaintiff respectfully requests that the Court:

16 (A) Permanently enjoin Defendant from continuing to infringe Plaintiff's
17 copyrighted Works;

18 (B) Order that Defendant delete and permanently remove the digital
19 media files relating to Plaintiff's Works from each of the computers under
20 Defendant's possession, custody or control;

21 (C) Order that Defendant delete and permanently remove the infringing
22 copies of the Works Defendant has on computers under Defendant's possession,
23 custody or control;

24 (D) Award Plaintiff statutory damages per infringed work pursuant to
25 17 U.S.C. § 504(a) and (c);

26 (E) Award Plaintiff its reasonable attorneys' fees and costs pursuant to
27 17 U.S.C. § 505; and

28 (F) Grant Plaintiff any other and further relief this Court deems just and

proper.

DATED this 25th day of September, 2026.
